In some cases, course fees may be paid directly to the third-party provider, with no additional enrolment fees payable to Allens Training.

If there are any material changes to your course, including trainer changes, delivery mode, or third party provider arrangements, you will be notified as soon as practicable.

Course Fees

Each qualification, unit of competency, or course offered by Allens Training or its authorised third-party providers has a specific course fee. This fee represents the maximum amount that may be charged for the selected course.

Course fees are set at competitive rates and will be communicated before enrolment. Fees may vary between courses. For details about fees and charges, contact Allens Training on **1300 559 064** or the relevant third-party provider before enrolling.

All fees must be paid according to the fee structure provided prior to enrolment.

It is our policy that the course fee will be all-inclusive. Students will not be 'surprised' by unexpected requirements, fees or expenses.

Course fee inclusions:

- ✓ All tuition;
- ✓ Support and coaching;
- ✓ Any associated student workbooks, handouts or manuals;
- ✓ Classrooms and facilities;
- ✓ Access to any specialised equipment necessary in the training.

If additional resources are required for your course (e.g., reference materials, research documents, or personal equipment like a computer), this will be clearly outlined in the pre-course materials or enrolment confirmation.

Fees, Payments and Refunds

Before enrolling, students are provided with clear and accessible information about course fees, payment conditions and their rights under the Fees, Payments and Refund Policy. This includes students enrolling directly with Allens Training Pty Ltd or through an approved third-party provider delivering training and assessment services on their behalf.

- **Extenuating Circumstances:** If you are unable to complete your course due to serious events (e.g. illness, emergency service duties), you may apply for special consideration with supporting evidence.
- **Refund Requests:** Refunds must be requested in writing. Processing times and conditions apply. Fees may be transferred to a future course if eligible.
- **No Refunds:** Refunds are not issued for late cancellations, non-attendance, change of mind, or student misconduct.

How to Request a Refund

To request a refund, submit a written request to your training provider. For enrolments through third-party providers, requests should go directly to them in the first instance. All refund outcomes will be notified in writing where possible.

For full details, including eligibility criteria, timelines and processing steps, please refer to our **Fees, Payments and Refunds Policy** available from your training provider, downloadable from our website or upon request from Allens Training.

Please note: Training conducted under a 'Business to Business' agreement (such as group training for corporate clients where the fees are paid by the employer and not paid by the individual student) is not covered by the Fees, Payments and Refunds policy. Business to Business arrangements may have other specific documented fee, payment and refund requirements.

Training and Assessment Information

Student Learning Needs

Allens Training is dedicated to recognising and addressing the unique learning needs of each student, ensuring the best chance of successful course completion.

Communicating Your Learning Needs:

We encourage students to share their learning requirements at any stage of their training journey. This can be done through:

- The enrolment and induction process
- Student Feedback Forms
- Email surveys
- Discussions with trainers
- Suggestions shared directly with our staff

Early Identification and Support:

Our trainers aim to identify and address students' learning and assessment needs before or at the start of training, ensuring the necessary support is in place from the outset.

This may include providing support through:

- LLN support;
- Assistive technology or equipment;
- Additional tutorials including online tutorial support;
- Email and telephone support where required;
- Other mechanisms, such as assistance in using technology.

Support may be provided directly by Allens Training staff or through arrangements with a third party. Support strategies will be developed in consultation with the student and if support involves additional costs, students will be informed, and approval will be confirmed before proceeding.

These strategies help staff design quality training tailored to each student's needs.

Reasonable Adjustment

Reasonable adjustment refers to measures or actions taken to provide a student with the same educational opportunities as everyone else. To be reasonable, adjustments must be appropriate for that person, must not create undue hardship for an RTO and must be allowable within rules defined by the training package.

Reasonable adjustment ensures our assessment processes accommodate students' unique needs while maintaining the integrity of competency standards specified by the relevant training package or VET-accredited course.

While adjustments can be made to assessment procedures, the integrity of the Unit of Competency and/or qualification must be upheld. Students still need to achieve the standards that employers and training providers expect. A student with a disability will be able to undertake training and assessment that is fair depending on the RTO's approach/position, preparation and application of adjustments. Reasonable adjustment measures must be considered on a case-by-case basis.

Adjustments may include additional time, oral instead of written assessments, literacy support, or arrangements for visual or hearing impairments. These adjustments remove unnecessary barriers, ensuring all students have an equal opportunity to demonstrate their skills and knowledge.

Our approach is guided by the principles of fairness, inclusivity, and maintaining the integrity of competency standards. Where a student's needs exceed our support capacity, we may refer them to external agencies with expertise. Any associated costs will be disclosed upfront to enable informed decision-making.

Recognition of Prior Learning (RPL)

Allens Training provides the opportunity for students to apply to have prior learning recognised toward a qualification or units of competence for which they are enrolled.

Recognition is available for any unit or qualification on the RTOs scope of registration, unless:

- Licensing or training package requirements prevent recognition
- The training product requires demonstration of specific, current workplace performance that cannot be validated through a recognition process
- RPL delivery is not cost-effective for certain short courses (e.g. CPR, First Aid)
- Industry consultation has identified that recognition of prior learning would not meet client or regulatory expectations.

In these cases, RPL will not be offered and will be clearly communicated in course-specific information provided prior to enrolment and accessible on our website.

What is RPL?

RPL is an assessment process that evaluates an individual's competencies gained through formal, non-formal, and informal learning to determine how well they meet the requirements of a training package or VET-accredited course.

- **Formal learning:** Structured instruction linked to an AQF qualification or statement of attainment (e.g., certificates, diplomas, or degrees).
- **Non-formal learning:** Structured instruction not resulting in an AQF qualification (e.g., in-house professional development programs).
- **Informal learning:** Learning gained through work, social, family, hobby, or leisure activities.

Recognition Guidelines

Eligibility:

- Any student enrolled in a course or qualification with Allens Training can apply for recognition.
- Recognition is only available for units or qualifications within Allens Training's scope of registration.

Application Timing:

Students are encouraged to apply before starting a training program to reduce unnecessary training and streamline their path to competence.

Verification:

Allens Training reserves the right to verify the authenticity of certifications with the issuing RTO.

Assessment Standards:

- Recognition assessments will follow the principles of assessment and the rules of evidence.
- Recognition can only be awarded for complete units of competence.

Forms of Evidence for Recognition

Recognition is a form of assessment that acknowledges skills and knowledge gained through formal and informal learning, work-based experience, or life experience.

Like other assessments, recognition involves collecting evidence and making a judgement. Assessors evaluate evidence provided by candidates to confirm:

- Skills and knowledge previously acquired through work, study, or life experiences.
- The candidate's ability to apply prior learning or competence to the intended workplace or industry context.

Forms of evidence **toward** recognition may include:

- ✓ Work records;
- ✓ Records of workplace training;
- ✓ Assessments of current skills;
- ✓ Assessments of current knowledge;
- ✓ Third party reports from current and previous supervisors or managers;
- ✓ Evidence of relevant unpaid or volunteer experience;
- ✓ Examples of work products;
- ✓ Observation by an assessor in the workplace;
- ✓ Performance appraisal; or
- ✓ Duty statements.

Individual pieces of evidence may not be sufficient on their own. However, when combined with multiple evidence items, they collectively build a strong case for demonstrating competence. Allens Training may require candidates to complete practical assessments to verify current competence. If additional evidence is needed, this will be negotiated with the candidate and may include interviews, written assignments, workplace assessments, or other relevant materials.

Possible RPL Outcomes:

- Full qualification awarded based on supplied evidence.
- Qualification awarded after additional assessment without classroom attendance.
- Partial recognition, reducing classroom and assessment requirements for course completion.

RPL Fees and Process:

- RPL fees vary by course and must be paid at the time of application.
- Candidates are responsible for providing complete and accurate documentation.
- Qualified RPL assessors are available to discuss applications and advise on supporting evidence.

If you are not granted RPL, candidates may request a review or lodge an appeal under the Complaints and Appeals Policy guidelines.

For more information, refer to the RPL/CT Information Handbook for Students and application forms downloadable from our website or upon request from Allens Training.

Credit Transfer

Credit Transfer (National Recognition) acknowledges formal learning where a current equivalent unit exists on www.training.gov.au and is available to all students enrolling in Allens Training courses on our scope of registration.

Allens Training recognise qualifications and statements of attainment issued by all RTOs registered within Australia. This allows students to receive credit for a unit of competency or module they have already completed successfully.

Any administration fees for this process will be communicated before the assessment of submitted materials.

Evidence Requirements

To apply for national recognition, you must provide your statement of attainment or qualification for review. These documents must:

- Detail the units of competency you have been issued.
- Be authentic, belong to you, and have been issued by an Australian RTO.
- Be in the correct format as outlined in the Australian Qualifications Framework.

You are required to submit certified copies of these documents along with consent for Allens Training to verify their authenticity with the issuing organisation.

Validation of Evidence:

Allens Training reserves the right to validate the authenticity of your evidence by contacting the issuing RTO. For further information, refer to the RPL/CT Information Handbook for Students, available for download on our website.

Competency Based Training

Competency-Based Training is a key feature of the vocational education and training (VET) sector. It is a student-centred approach where students demonstrate skills and knowledge to meet specific competency standards outlined in units of competency. This approach emphasises practical, real-world skills that prepare students for their chosen industry or profession. It offers flexibility, allowing students to:

- Progress at their own pace.
- Access recognition of prior learning.
- Receive tailored support if needed.

Allens Training and our third-party providers are committed to giving students every opportunity to demonstrate their ability to perform the required tasks.

Qualified Trainers and Assessors

Trainers and assessors are key to delivering high-quality education and training. At Allens Training, all Trainers and Assessors meet the requirements of our Trainer Credential Policy and maintain industry and VET currency in accordance with ASQA guidance and the Outcome Standards 2025. We uphold the highest standards for our trainers and assessors, ensuring they possess:

- Current qualifications

- Practical skills relevant to the courses they deliver
- Familiarity with Equal Employment Opportunity and Workplace Health and Safety principles;

Their expertise allows them to effectively support students, meet individual learning needs and assess work fairly. Our trainers and assessors are dedicated to fostering a safe, inclusive and respectful learning environment. They strive to provide the necessary support to help students achieve their course outcomes, reflecting our commitment to delivering a positive and high-quality learning experience.

Academic Honesty and Integrity

At Allens Training, we expect all students to uphold academic honesty and complete assessments with integrity. This means all assessment work you submit must be your own, unless group work is specifically allowed.

Your Responsibilities:

- Submit your own original work for all assessments.

- Verbal questioning

- Review of your declaration

What Happens if There's a Breach?

Academic misconduct is taken seriously. If you're found to have plagiarised or cheated, you may:

- Be asked to re-do your assessment
- Be removed from the unit or course
- Be ineligible for a refund
- Have the matter investigated further by the Compliance Team

You will have the chance to respond to any allegations, and you may appeal the decision.

For more information, see the full **Academic Integrity and Plagiarism Policy** or speak to your trainer.

Completion of Pre-Course Work

It is of utmost importance that you finish any required pre-course work prior to the start of your face-to-face training session. If you have not completed your pre-course work, the decision to allow your participation in the face-to-face session and practical assessments will be at the discretion of your trainer and assessor on the day.

Please be aware that your competence in the course will only be recognised once you've successfully completed all components of both the practical skills and theory assessments. For courses conducted through the 'online training with face-to-face assessment' delivery mode, if you can successfully fulfill the practical components, the Training Desk system will grant you a 60-day timeframe to finalise any outstanding online work.

If, after 60 days from the conclusion of your face-to-face course session, you still have unfinished online components, your enrolment status will be changed to 'abandoned,' and you will not receive any certification for the training. It's important to note that in the event of an abandoned enrolment, there will be no eligibility for a refund of your student fees, and you will be required to re-enrol.

If you manage to complete your work within 60 days from the conclusion of the face-to-face portion of the course, you will receive a certificate valid from the day you finish the online component.

For detailed information on our Student Pre-Course Work Policy and Procedure please download the full policy document from our website.

Assessment Processes

Units of competency can be assessed on the same day of delivery or afterwards depending on the mode of delivery. Units of competency delivered by mode of face-to-face for example is likely to be assessed on the same day as delivery.

Rules of Evidence

Allens Training will ensure our assessment tools meet the **Rules of Evidence**:

- **Validity** - The assessment evidence clearly demonstrates that the student has the required skills and knowledge as outlined in the unit of competency and assessment requirements.
- **Sufficiency** - There is enough quality and relevant evidence to make a fair decision about the student's competency.
- **Authenticity** - The evidence provided is confirmed to be the student's own work.
- **Currency** - The evidence reflects current skills and knowledge and has been gathered from recent activity.

Principles of Assessment

All assessments at Allens Training are designed and conducted in line with the **Principles Of Assessment**:

- **Fairness** – Each student's needs are considered. We apply reasonable adjustments where appropriate and inform students about the assessment process. Students can also request to have assessment decisions reviewed or to be reassessed.
- **Flexibility** – We adapt assessment to suit individual learners. This includes recognising prior learning and using a variety of assessment methods suited to the student, the unit, and the context.
- **Validity** – Assessment decisions are based on evidence that matches the skills and knowledge described in the unit. This includes:
 - Aligning tasks to the unit's requirements
 - Assessing both knowledge and practical application
 - Using evidence that shows the student can perform in real or simulated environments
- **Reliability** – Assessment outcomes are consistent, and different assessors will reach the same decision using the same evidence.

Assessment Methods

Allens Training uses a combination of assessment methods. Some of the methods may include:

- ✓ **Observation**: where the student will be observed performing a series of tasks a number of times to determine their competency.
- ✓ **Verbal question and answers**: when the student will be questioned to determine the depth of their understanding of the process to ensure that they are competent.
- ✓ **Written assessment**: In this instance the student will be given the opportunity to demonstrate their competency through multiple choice questions, short answer questions, written reports etc.
- ✓ Other methods include case studies, projects, essays, video tasks, logbooks and third-party reports.

All assessment tasks consider language, literacy or cultural factors related to the task.

Allens Training does not provide job or work placements as part of the course delivery unless explicitly stated in your course information.

For details about assessment methods for your chosen course, refer to the course outline.

Allens Training will provide written confirmation of your timeframe and expected completion date upon registration.

Applications for extension to completion timeframes must be made in writing to Allens Training for review. Please email compliance@allenstraining.com.au and detail the circumstances surrounding your request for an extension. You will receive a response in writing within 7 days of your request.

More information on suggested timeframes for individual units and qualifications and for the volume of learning within a qualification, please refer to the 'Student Information' for that particular course.

- Students can repeat the assessment task as soon as can be practically arranged, ideally, on the same day of the course.
- Where possible, the student will be reassessed on the day of the course. If the student is deemed 'Satisfactory' after the additional attempts, the outcome of the assessment is captured as 'Competent'.

Stage 2: Student deemed 'Not Yet Competent'

- The student should be re-enrolled in the course to undertake the required gap training and assessment. The training and assessment may include the complete knowledge and skills component of the course, or just the areas/topics where the student has demonstrated gaps in their knowledge.
- The student must participate in a new assessment task within thirty (30) days of notification. An administration fee may be charged to cover the cost of supplying new resources if required. This remains at the discretion of the assessor.
- If a student is deemed satisfactory for the assessment tasks previously deemed 'Not Yet Satisfactory' and all assessment requirements are met, the student must be marked as 'Competent'.

Appeals process:

- Appeals process - If a student is found 'Not Yet Competent' after re-assessment, they may wish to appeal the decision. The appeals policy and procedures are available for download from our website.

Assessors aim to mark assessments within 24 hours of receipt of submission where practicable. Students will be notified where this timeframe cannot be met for any unforeseen reason.

Assessment Feedback

Assessors will provide students with feedback where further evidence is required. Feedback will be provided to the student in a prompt timeframe and during practical assessments where required.

Issuance of Awards

On successful completion of a course, subject to all outstanding checking of documentation and providing all agreed fees the student owes to Allens Training, or the partner organisation have been paid, students will be issued with the appropriate Certification within 30 days of completion of the training course.

All qualifications and statements of attainment will be issued by Allens Training and will be issued without alteration or erasure and be identified by a unique number – printed on the qualification or statement.

Qualifications and statements of attainments will be issued according to the students' legal name as provided when creating their Unique Student Identifier (USI). For Certification to be re-issued under a new name, relevant evidence supporting the change of name will be requested. In addition to this, the students' names will need to be updated in the USI system in order for the new certification to be issued.

Statement of Attendance

Statements of attendance are supplied to students who decide not to proceed with the assessment component of a course but still require documented evidence of attendance, or for students who attend non-accredited training (e.g. skills only).

Superseded Units/Qualifications

Allens Training ensures students have access to the most current units of competence or qualifications. When a Training Package is superseded, we will support students to complete their enrolment course or be transferred into the replacement training product in a timely manner.

During this transition period particular attention will be given to monitoring client feedback and the implementation of any changes that are identified as necessary in this process.

Student Feedback

Your feedback is essential for improving the quality of our courses and services. We encourage you to provide honest and thoughtful responses to any surveys or feedback forms provided by your trainer.

After successfully completing your course, you will receive an email notification about your certificate. This email will include an option to provide additional feedback on your training experience.

Studying can sometimes lead to stress, especially when juggling multiple commitments. To help you manage stress effectively, we offer the following tips and resources:

Time Management Techniques: Organise your study schedule in advance, setting aside time for breaks and personal commitments. Break your work into smaller, manageable tasks to avoid feeling overwhelmed.

Regular Breaks: Follow the 20-20-20 rule: for every 20 minutes of study, take a 20-second break and look at something 20 feet away to reduce eye strain and give your mind a break.

Physical Activity: Incorporating regular movement into your day can help reduce stress. Even a short walk or stretching during study breaks can improve your mood and focus.

Mindfulness and Relaxation: Practice mindfulness techniques like deep breathing or meditation to calm your mind. Apps like Smiling Mind or Calm can guide you through relaxation exercises to relieve tension and anxiety.

Balancing Study with Life Commitments

We understand that life doesn't stop when you begin your studies, and balancing personal commitments with coursework can sometimes feel overwhelming. Here are some strategies to help maintain balance:

Flexible Learning Options: Many of our courses offer the flexibility to complete pre-course study at home, allowing you to learn at your own pace and in your own environment. This can help you manage your time more effectively, balancing study with work, family, and personal commitments.

Study-Life Balance: Make time for yourself. It's important to maintain your hobbies, social activities, and relaxation time, so you stay refreshed and motivated in your studies.

Ask for Help: If you find yourself struggling to balance study and life, reach out to your trainer or our student support team. We can offer advice on how to manage your workload or refer you to additional support services.

Accessing Resources and Support

If you ever feel like you need additional support, our team is here to help. We provide referral pathways to a wide range of support services, including counselling, stress management resources, and external agencies that can offer further assistance. Whether it's personal issues, study-related stress, or balancing life's demands,

we will work with you to find the right solution. In some cases, there may be fees associated with external services, but we are committed to providing you with all the information you need to make confident decisions about your learning and wellbeing. Our goal is to ensure that you have the right support in place to succeed.

Language, Literacy, Numeracy and Digital (LLND) Support

Language, literacy, numeracy and digital literacy (LLND) skills are essential to student success in vocational education and workplace performance. These skills impact tasks such as reading safety instructions, performing calculations, interpreting workplace signage, and using digital platforms.

To ensure students are supported appropriately, Allens Training will:

- ✓ Identify LLND support needs prior to or at enrolment, through a self-assessment or other suitable screening process, to determine where additional support may be required to complete the training.
- ✓ Provide training and assessment materials that are accessible, clearly written, and appropriate to the skill level required by the training product and workplace context.
- ✓ Offer information about available LLND support, including recommending external providers such as TAFE where more intensive assistance is required. These providers have qualified support practitioners to assist with language, literacy and numeracy skill development.
- ✓ Refer students to external LLND or digital literacy support services if support needs are beyond what Allens Training can reasonably provide.
- ✓ Negotiate reasonable adjustments to the training or assessment process, including time extensions, changes to delivery format, or other flexible strategies—based on individual needs identified during the enrolment process.
- ✓ Record LLND support needs and adjustments in the student's file (via Training Desk) to ensure they are considered throughout the course.

All LLND support decisions are made in consultation with the student. Where external support services involve a cost, the student will be informed prior to any referral.

All training and assessment is conducted in English unless otherwise stated. LLND needs do not impact eligibility for enrolment and are addressed in a way that supports fairness, equity, and successful training outcomes.

Supporting Priority Student Cohorts and First Nations Students

Allens Training is committed to supporting priority student cohorts, including individuals from First Nations communities, students with disability, culturally and linguistically diverse backgrounds, and those facing social or economic disadvantage. We provide targeted assistance to ensure all students have equitable access to quality training and support services.

Our Student Support Officer is available to help with a wide range of academic and personal needs, and our First Nations Student Support Officer offers culturally responsive assistance tailored to the needs of Aboriginal and Torres Strait Islander learners. This includes helping students navigate training requirements, access appropriate services, and engage meaningfully with their education.

We actively work to create a safe, inclusive, and respectful learning environment for all learners, and encourage students to reach out at any time if support is needed.

We are committed to providing an inclusive and culturally safe learning environment for all our students.

Understanding the unique experiences and needs of our First Nations learners is central to our approach, and Student Support Officers play a key role in achieving this.

Cultural Awareness and Respect

Our Support Officer promotes a culturally inclusive environment that respects and celebrates the rich heritage of First Nations peoples. We acknowledge the importance of cultural awareness and embed it into our support services and training practices.

Support and Guidance

We understand that each student's journey is different. If required, the First Nations Student Support Officer will work closely with all students to identify the individual needs of First Nation learners, offering support and advice to help them succeed in their studies.

Facilitating Informed Decisions

Making informed choices about education and training is crucial for success. Our Support Officer ensures that First Nations students have access to clear and transparent information about training and assessment processes, pathways, and the support services available. This empowers students to make choices that align with their goals and circumstances.

Providing a Safe Space for Concerns

We are committed to ensuring that First Nations students feel safe and supported to voice any concerns or challenges they may face. Our Support Officer is available to listen, advocate, and guide students through the process of resolving issues, promoting a learning environment where everyone feels heard.

Access to Support Services

Beyond academic support, our First Nations Student Support Officer will be able to connect students with a range of services that may assist them, including cultural support, mental health resources, and community organisations. This holistic approach ensures that the well-being of our First Nations students is prioritised.

Your Voice Matters

At Allens Training, we are dedicated to fostering an environment where First Nations students are not only considered but actively engaged in their education. The First Nations Student Support Officer is here to ensure that every student has a voice and can participate meaningfully in their learning experience.

Working with Persons Under 18 Years of Age

Unless otherwise specified, students under the age of 18 years may enrol with Allens Training. In some cases, our courses cannot be delivered to individuals under the age of 18 due to specific industry age restrictions or site requirements. Please ensure you have spoken with one of our staff members prior to enrolment.

Rights of Under-18 Students

As a student under 18, you have the right to:

- Learn in a safe and supportive environment free from harm.
- Be treated with respect and dignity by trainers, staff, and fellow students.
- Access support services and receive help with any issues you may face during your studies.
- Raise concerns or make a complaint if you feel unsafe, and have these concerns addressed promptly and appropriately.

Safeguarding and Supervision for Under-18 Students

We are committed to providing a safe, inclusive, and supportive learning environment for all students, including those under the age of 18. We follow the 10 National Principles for Child Safe Organisations which outline specific requirements to ensure that young people are protected, supported, and given the resources they need to succeed in their studies.

For students under 18, we have additional safeguards in place to ensure their safety and wellbeing while enrolled with us. These measures include:

Trainers' Qualifications: All trainers who work with students under 18 are required to meet the Working with Children Check (WWCC) or equivalent requirements for their state or territory. This includes obtaining clearance from relevant authorities to work with minors, ensuring that they have been thoroughly vetted to provide a safe learning environment.

In some cases, certain individuals such as police officers, schoolteachers, and other government employees may be exempt from holding a Working with Children Check (WWCC) due to the nature of their role and existing vetting processes. Additionally, in Western Australia, current legislation does not classify vocational trainers as engaging in "child-related work," meaning they are not eligible to apply for a WWCC. Despite these exceptions, Allens Training remains committed to providing a safe learning environment. Where a WWCC is not legally required, we ensure these individuals hold an appropriate Exemption Notice and/or a current National Police Check before working with students under 18.

Staff Qualifications: All RTO staff have undertaken additional training relevant to working with children and the 10 National Principles for Child Safe Organisations to ensure a safe learning environment is provided to all under 18 students enrolled with us.

Child Safe Environment

Creating a child-safe environment where students under 18 feel safe, respected, and supported is important to us. The National Principles for Child Safe Organisations guide our approach by focusing on key areas such as:

Student Empowerment: We encourage young people to speak up if they have any concerns about their safety or wellbeing. We ensure that all students under 18 are aware of how to access support and report concerns, whether related to their studies or personal issues.

Clear Reporting Mechanisms: If any student under 18 experiences or witnesses inappropriate behaviour or feels unsafe in any way, they can report their concerns to our team. We take all concerns seriously and have a clear process in place to address and resolve issues promptly and confidentially.

Support Services for Under-18 Students

We recognise that under-18 students may need additional support to help them balance their education with other commitments and to ensure their personal well-being. As part of our commitment to supporting young learners, we provide:

- **Counselling and Wellbeing Support:** We offer access to support services for mental health and wellbeing, including counselling services, if needed. Our team is available to guide under-18 students through any challenges they may face, both academically and personally.
- **Tailored Learning Support:** We offer tailored learning support for under-18 students, ensuring that they are provided with the right resources, assistance, and adjustments to succeed in their studies. Whether they need extra help with their coursework or guidance in managing their time, our trainers and support staff are available to assist.

Confidentiality and Child Protection

We maintain strict confidentiality when dealing with any personal information, including any issues or concerns raised by under-18 students. However, we are also required to follow child protection laws, which may involve mandatory reporting if a student is at risk of harm. In such cases, we will act in accordance with relevant laws to protect VET students while maintaining their privacy to the greatest extent possible.
